

HOW TO USE THE DIGITAL WORLD BANNERS

Thanks for choosing to help promote Digital World. To make the digital banners link through to our website, you now need to add hyperlinks.

The URL we would like you to hyperlink is:

WWW.DIGITALWORLD.NET

We've provided links to resources that explain how to do this. We've included the most likely online services you'll use with the banners. There are lots of other online services that you may use, and a quick search online will show you how to add hyperlinks to banners using these. Alternatively, get in touch and we can help.

Click below on the link that best describes the service you'll be using with the Digital World banner:

[OUTLOOK](#)

[APPLE MAIL](#)

[GMAIL](#)
